## BRIEFLETS.

—Few tramps.  
—No fire alarms, but plenty of fires.  
—Young Men's Christian Association meets to-night.  
—One wedding at least is on the books for to-morrow.  
—Mr. William Menzies is reported as improving somewhat.  
—The Guards have their annual balloting for officers to-morrow night.  
—Prof. Severance's dancing school will meet at Apollo hall to-night.  
—The weather is having a reception. Everybody must shake, unless their clothes are well lined.  
—No further details have yet been received concerning the killing of Mr. Baker in Albany, N. Y.  
—A good many of the loads of wood offered for sale on the square are never sold on the square.  
—The Rifles dedicate their new armory to-morrow night. It is a fine one, and ought to have a lively send-off.  
—The church folk are already at work on Christmas festivities, and every Sunday sees new additions to the Sabbath school.  
—The police court is void of news and the Justice sits in solitary confinement waiting for some devilry to be committed.  
—There is to be a Shaker sociable at the residence of H. S. Hogoboom this evening. Everybody is asked to come and enjoy themselves.  
—Frank Richards' case in Dane county, has been continued until the next term, on account of the illness of Mr. Reithinger, who is a witness.  
—The members of the State Board of Charities and Reform are expected to arrive this evening, and will visit the Institution for the Blind.  
—Tickets for Prof. Cammack's reading on the 24th, including programme, are now for sale at the bookstores and at Webb & Hall's. Only 25 cents.  
—An exchange says "apples are crawling up every day, and now is the time to buy." There must be worms in those apples, or they wouldn't crawl so.  
—Robt. Brand and Henry Horne, two former Janesvillians, but now of Oshkosh, were in the city to-day, shaking hands with old-time friends, of whom they have hosts here.  
—The colored folk have raised \$54 toward buying a church. They want only one other member to make up the sum to \$100, and almost any one ought to be willing to give a cipher.  
—Talk about Janesville buying goods of Chicago. Why, Chicago buys goods of Janesville, as for example, Prentice & Evenson have just received an order from a Chicago house for a gross of Rosaline Jelly, which they prepare for burns, chaps, bruises etc. Enterprise is appreciated widely.  
—The police papers give Beloit a fair amount of free advertising in the late issues. One picture is presented of a baggage master rolling along the truck on which is seated a young lady with a sprained ankle. Another shows how two men were bounced out of a hotel there for indecent conduct.  
—A man came out of Brooks' saloon to-day and climbing into his lumber wagon started to drive off. As the team started he fell out, and the horses started on the run. He hung to the lines and stopped them, but just as he got onto his feet, they started again. Some one grabbed the horses by the bridles, and stopped them. The man's escape from being run over was a narrow one.  
—The Temple of Honor social last evening was very slimly attended in comparison with the previous gatherings of like nature. There was much enjoyment though, and those who participated had a happy time. There are so many social events now on the boards as to render the date rather an unfortunate choice, but in all respects save numbers, the affair was a success.  
—A report comes from Waupun that Baumgarten, while at work in the prison yard a few days ago, got into a quarrel with some of his fellow-prisoners, and seizing a pick-axe struck one of them, inflicting a bad wound on the face. It is further said that Baumgarten was then put in solitary confinement, and given bread and water for a diet, and that he is to be kept by himself for two months.  
—We were in receipt to-day of a queer bouquet from Mrs. E. B. Richards, formerly of Janesville, and now residing in California. It consists of a large sweet potato, the inside of which is all scraped out, and a door cut in the side. The flowers are all arranged inside the potato, so that on opening the rough exterior, the beauty of the interior comes like a happy surprise party. The flowers sent in this way are kept very fresh, though they have been more than a week on the road.

## THE WEATHER.

REPORTED BY PRENTICE & EVENSON, DRUGGISTS.  
The thermometer at 6 o'clock last evening stood at 36 degrees above zero; at 1 o'clock a. m. to-day at 26 degrees above; at 7 o'clock a. m. at 29 degrees above, and at 1 o'clock p. m. at 45 degrees above. Cloudy.  
One year ago to-day at 7 o'clock a. m. the thermometer stood at 33 degrees above, and at 2 o'clock p. m., at 49 degrees above.  
The indications to-day are, for the lake region, upper Mississippi and lower Mississippi valleys, west to southwest winds warmer and partly cloudy weather; in northern portions, probably snow or rain, and falling barometer.

Mr. WM. REINHARDT, Elmore, Wis., reports as follows: ST. JACOBS OIL is really a wonderful remedy, for I could mention dozens of cases where it has proved its magical influence. One case in particular I will state: I know a man who has suffered with Rheumatism of the last twenty-four years, and of late he could hardly move around. After using a few bottles of St. Jacobs Oil he was entirely cured.

## BLOODY BEASTS.

Four of Burr Robbins' Hyenas have a Fearful Fight—One of Them Killed.  
Yesterday afternoon the every day business on Burr Robbins' farm was broken into, and all hands set in a whirl of excitement by a fight which arose among the hyenas in their cage. There were four of these blood-thirsty animals in the cage, and all of them took a hand in the fight, which was a most desperate one. The men rushed to the cage and sought, by various means, to quiet the fierce animals, but all to no effect. They clawed and howled, grappled with each other, tumbled and jumped, "and fit and fit." As soon as first blood was drawn the sight and taste of it infuriated them till they seemed like demons. The men tried clubs and sharp rods to make them let go of one who seemed weaker than the others, and who was bleeding badly, but this seemed to infuriate the beasts still more. The hyena who seemed to be the victim of the others' wrath had his nose literally chewed up clear to his eyes, and one of his fore paws was munched by the bloody jaws of his fellows until there was nothing left of it but a few dangling bits of skin and sinew. The battle was as fierce and bloody as one as ever was witnessed in a menagerie. The hyena so badly wounded would not give up, but fought to the very end, and was full of pluck. The others were at last forced off by the men, and the wounded one was removed from the cage, but his injuries were such that he had to be shot to end his miseries.

## FOR BODY AND BRAINS.

Congressman Williams' Visit to the Military Academy at Fairbault—Some Interesting Details of the Work Done There.  
Congressman Williams has returned from Fairbault, Minn., where he visited the military school at which a number of boys from this city are in attendance. Mr. Williams expresses himself as well pleased with the school, and the work it is doing. The enterprise was started some years ago by Prof. James Dobbin, it consisting then of a small frame building located on bare bluffs, and with a small attendance. By his own efforts, and with the aid and cooperation of Bishop Walpole and others, he has built up one of the finest institutions in the northwest. He has erected main buildings, dormitories, chapel, and a boarding house of the most substantial character, made of fine blue limestone, which is found on the ground. These buildings are finished finely, tiled floors, stained glass, in fact everything in keeping with the general appearance of substantiality and attractiveness.  
Lieutenant Dane is detailed from West Point, and drills the boys daily. The discipline of the school is largely under his control, though the ultimate appeal is to Prof. Dobbin. Mr. Williams speaks very highly of these gentlemen, and has great confidence in their methods of instruction and modes of discipline. The general policy seems to be to appeal to the honor of the pupils, rather than arbitrary force. Their punishment for offenses are various. Sometimes they are obliged to travel boats during play hours. They are in some extreme cases obliged to lay aside their uniforms and appear in citizens dress, while their comrades wear the bright buttons and the tinsel. Expulsion is a last resort. The pupils are taught regular habits of body and mind, and the instruction seems very thorough, and the whole policy is based on good common sense. The pupils number 120.  
The theological school is under the control of Prof. Chase whom Mr. Williams found to be a fellow townsman of his from Lockport, New York.  
Fairbault has a population of between 5,000 and 6,000, is the county seat, and is located in one of the most fertile portions of Minnesota. There are mills and manufacturing, and a lively whirl of business. Mr. Williams returns well pleased with the school and with the surroundings of the place, and advises all who have sons to educate, to enter them at Shattuck School, if they can obtain admittance. Janesville is already represented there, and the boys seem to enjoy it and are doing well. Hiram Merrill's son is among them and he is now one of the Captains. The pupils are divided into companies, and each member of the school is promoted from one position to another in accordance with their merit until they gain a Captaincy. These Captains are made "officers of the day," and whoever is on duty on a certain day makes a written report of all violations of rules, to which the accused is called upon to answer in writing. The Captain's position is one therefore of trust and importance.

## "OUR NEXT PRESIDENT"

Next Monday evening John Dillon is to be at the Opera house, and is to give a play. Dillon has appeared here in his old pieces many times, and many admirers will be glad of a chance to see him in something new. He has made a hit on this place elsewhere, and will doubtless draw a crowd here. The St. Paul Daily Globe of Oct. 14, says: John Dillon and his excellent company appeared at the Academy of music last night, in the new play, "Our Next President, or the Dark Horse," and won golden laurels. John is a favorite in the Northwest, and his friends turned out in full force last night. Before the curtain went up, the house was well filled, and the seats were back of the third row in the dress circle before the doors were thrown open. The play is a very funny production, and John Dillon as Silas Pettibone, was at his very best, and reminds one of his acting in years gone by. Miss Louise Dillon is as pretty and vivacious as ever, and won many new admirers, besides a pleasing all her old friends. Mr. John W. Blaisdell and the balance of the company are excellent in their respective roles. They appear at St. Paul this evening, and amusement lovers there may be sure of a dramatic treat.

## Among the Useful Toilet Articles

We notice a much liked preparation for the hair, possessed of properties so remarkable that no one who cares to own a clean and healthy scalp with beautiful hair should pass it untried. Its properties are cleansing, invigorating and healing, and after a few applications the hair ceases to fall. Dandruff and Humors disappear, and the hair grows clean, soft and silky. It keeps the head cool and comfortable and gradually restores the hair, if gray or faded, to the natural life like color, beautiful to look upon. It is Parker's Hair Balsam that has won such popular appreciation by its many excellent and healthful properties. Sold in large bottles at only 50 cts. and \$1.00, by all first class druggists.

I strongly recommend the use of Fellows' Compound Syrup of Hippophosphites to all who suffer in any way from disease or weakness of the Lungs, Bronchial Tubes, or general debility.

From Rev. Sylvanus Cobb, of Boston, formerly Editor of the Christian Freeman.

"It may be some satisfaction to you to be informed of the result of the trial of the PERUVIAN SYRUP in my family. My daughter was brought low by a typhoid fever last spring, and after the fever left her she continued very weak, and the simplest food distressed her. For months she remained in the same debilitated condition; but, from the last of September last, when she commenced taking the Syrup, the digestive functions improved, and she steadily gained strength and vitality; and now, having taken two bottles, she is restored to a good state of health; indeed, she appears more really healthy than she has for several years past. I am of opinion that the Peruvian Syrup, contained in the Peruvian Syrup was adapted to her case, and effected what no other known medicine could have effected." Sold by druggists and dealers generally. Sold in Janesville by Prentice & Evenson. nov19dawly

## "OH! MY BACK!"

The wonderful success of HUNT'S REMEDY has been so generally known, that it is unnecessary to advertise their world's famous preparations for the cure of Kidney Diseases, excepting to report to all who are afflicted with these troubles, that HUNT'S REMEDY is the only remedy which has stood the test for 30 years.

## LATE HOME TESTIMONY.

199 Westminster St., Providence, R. I., Oct. 13, 1879.—Wm. E. CLARK—Dear Sir: I have suffered very much with my Kidneys and Liver for years. In January, 1879, I grew worse, suffering fearfully. My physician, one of the best in Providence, wished me to try HUNT'S REMEDY, as safe and reliable, as he had known it to cure Kidney Diseases when all other medicines had failed. I did so, and in twenty-four hours I passed four or five gallons of water, the blood was removed, and the great relief made me feel a new man. Were it not for HUNT'S REMEDY I would not be alive to-day. E. E. SHAPARDSON.
